2. The Ant bit him and he cried, Ouch!

3. Once upon a time an Ant went to the bank of a river to drink water.

4. The Ant climbed on it and floated to the bank.

5. Hearing the noise the Dove flew away.

6. It was carried away by the rushing water.

7. It plucked a leaf and dropped it close to the Ant.

8. Later a hunter was getting ready to shoot the Dove.

Question II

[5]

Write a **letter** to your Grandma telling her about your *pet* and how you *care for it*.

Question III

Read the passage and answer the questions that follow:

[10]

Rainforests are different from other forests because they get a lot of rain every year. The Amazon Rainforest is found in South America and it goes across many countries. It is beautiful place that is full of unique animals, millions of miles of trees and rare plants and bugs. Some of the most common types of trees that can be found in the rainforest are the Brazil nut-tree and palm trees. The Amazon rainforest is called the “The Lungs of the Earth” because it produces over 20% of the world’s oxygen supply. The rainforest is mostly known for its huge variety of animals including mammals, birds, fish and insects.

Rainforests keep our planet healthy. Without it the earth could run into great problem.

1. Where is the Amazon Rainforest found?

2. What kind of trees grow there?

3. What is the Amazon Rainforest called? Why?

4. What do Rainforests do for our planet?
